## North Texas

### COMMUNITY BRIEFS

#### OAK LAWN

#### Southwestern Medical Foundation held event

Southwestern Medical Foundation recently hosted a reception at the original Nurses Quarter at Old Parkland. The evening celebrated those who provide scholarships to medical students and those who wish to learn more about the importance of scholarships for future doctors.

Dr. Daniel K. Podolsky, president of UT Southwestern, gave opening remarks. The event included a panel with pre-med students discussing their experiences as scholarship recipients and pre-med students at the medical school.

About 60 percent of all participating physicians in North Texas receive some or all of their education at UT Southwestern. Learn more at [utsouthwestern.edu](http://utsouthwestern.edu).
